Avio MP 700E

3LCD Bild im Bild

Brief Introduction Beta 2.5	The Avio model MP 700E is an LCD projector with XGA 1024 x 768 resolution and a contrast of 500:1. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector will be able to illuminate a picture width of 571 cm well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 381 cm here. The model is no longer offered by Avio. Unfortunately, we can no longer offer replacement lamps for this model, neither originals nor replicas.
