INTRODUCTION

Guangzhou Hongtianpao Digital Electronics Factory founded in 1992 and located in Huadu District of Guangzhou, specializes in R&D, production, sale and application of LCD projector. “Hongtianpao” projectors, with excellent cost performance, are very popular in the export markets. Also, with 19 years experience about single LCD projector production, we had developed various models of video projectors. Our projectors all build in TV tuner, widely used for home theatre and smaller conference ,such as watching big screen TV programs, Movies, Matches, and playing games.
