

3D perception PZ30SX

3D PERCEPTION PZ30SX

Brief Introduction

Beta 2.5

A brief introduction to the 3D perception PZ30SX. The standard portable DLP projector has an SXGA 1280 x 1024 resolution and a contrast of 1000:1. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 3000 Ansi lumens, a picture width of 464 cm is possible. In room light, the picture should be max. 309 cm wide. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. At 28 decibels, the projector is very quiet compared to other projectors. It is no longer offered by the manufacturer 3D perception, but is still very popular in our projector database.

Display Type

1 x DDR DLP Chip
SXGA 5/4 Ti Digital Light Processing Chip

Ansi-Lumen

3000

910 Lux (bei 203 cm Screen)

Contrast
