

# 3D perception CompactView 3DP LX1500

The 3D perception model CompactView 3DP LX1500 is an LCD projector with XGA 1024 x 768 resolution and a contrast of 2000:1. The projector also offers a lens shift function, which makes setting up the image childs play. Thanks to the brightness of 15000 Ansi lumens, a picture width of 1067 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend a maximum of 711 cm). Furthermore, the projector can play 1080P without any problems. On the market since 2010, the model is no longer offered by the manufacturer 3D perception.

**Brief Introduction**  
Beta 2.5

**Display Type**

 3 x 1,8" LCD TFT Panel  
XGA 4/3 Liquid Crystal Display

**Ansi-Lumen**

Projector 15000      Screen 5000 Lux (bei 200 cm Screen)

**Contrast**
