

3D perception CompactView 3DP LX700

Brief Introduction

Beta 2.5

The stationary CompactView 3DP LX700 BrilliantColor DLP projector from 3D perception has 7000 Ansi lumens, a contrast of 3500:1 and an XGA 1024 x 768 resolution. Includes a lens shift and keystone correction function, which provides freedom during installation. The projector can illuminate images up to 729 cm wide thanks to its 7000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 486 cm. Playing 1080P is also no problem for the projector. The projector was launched in 2010 and is no longer sold by the manufacturer.
