

8848 TANK X

8848 TANK X

Brief Introduction

Beta 2.5

Brief introduction to the 8848 TANK X. The micro-portable DLP LED projector has an HDTV 1920 x 1080 resolution and 220 ANSI lumens. Thanks to its LEDs, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years at 4 hours per day. An image width of up to 129 cm is possible because the projector has 220 ANSI lumens. However, if there is room lighting, the image should be no more than 86 cm wide. The built-in 17,600 mAh battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. Since the projector recognizes Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. The model is also Full HD 1080P compatible.
