The E-Cinema Solaria CP42LH 3D DLP projector from Christie has 60000 Ansi lumens and a UHD (4K+2K) 4096 x 2160 resolution. 803 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, max. 535 cm is recommended here. Video signals 1080P and 4K as well as 3D are also no problem for the projector, meaning that all currently available Blu-ray formats can be recognized by the projector. The projector was launched in 2015 and is no longer sold by the manufacturer, but is still one of the most popular projectors.
