

Digital Projection Lightning 35HD T

The large-screen Digital Projection Lightning 35HD T DLP projector has 16000 Ansi lumens, a contrast of 1600:1 and HD2K 2048 x 1080 resolution. The projector also offers a lens shift function that makes image adjustment childs play. The projector can illuminate images up to 1102 cm wide thanks to its 16000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 735 cm. If the image width is not sufficient, the projector offers integrated edge blending software, with which several projectors can project a large image together. The model built in 2005 is no longer offered by Digital Projection.

3 x 1,26" dark metal HPO 12° DLP Chip
HD2K 4/3 Ti Digital Light Processing Chip
