EPSON USA POWERLITE 1960

The Epson USA PowerLite 1960 LCD projector has 5000 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. The integrated media player can play files directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. A picture width of up to 616 cm is possible as the projector has 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 411 cm. It is also Full HD 1080P compatible. It was launched in 2012 and is no longer offered by the manufacturer Epson USA.
