Brief introduction of the Epson EB 1935. The standard portable LCD projector has an XGA 1024 x 768 resolution and a contrast of 3000:1. The integrated media player can play files directly. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. Thanks to the brightness of 4200 Ansi lumens, a picture width of 564 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend a maximum of 376 cm). Playing 1080P is also no problem for the projector. The projector was launched in 2012 and is no longer sold by the manufacturer.
