

Brief Introduction
Beta 2.5

The standard portable aao Adam LED DLP projector has 320 Ansi lumens, a contrast of 5000:1 and an HDTV 1920 x 1080 resolution. The manufacturer aao specifies a service life of 50000 hours, which is equivalent to over 34.2 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. An image width of up to 182 cm is possible as the projector has 320 Ansi lumens. However, if room light is available, the image should be a maximum of 121 cm wide. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Even 1080P video signals are no problem for the projector.
