aao YG491

Brief Introduction
Beta 2.5

The aao model YG491 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. Due to the LEDs, the projector has a light lifespan of up to 50000 hours, which is over 34.2 years at four hours of use per day. The projector also offers an integrated media player that can be used to play files directly. A picture width of up to 216 cm is possible because the projector has 450 ANSI lumens. However, if there is room light, the picture should be a maximum of 144 cm wide. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via the Bluetooth function. Furthermore, it is Full HD 1080P compatible.
