

Acer C250i

ACER C250i

The Acer C250i LED DLP projector has 300 Ansi lumens, a contrast of 5000:1 and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years at 4 hours of use. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. Thanks to the brightness of 300 Ansi lumens, a picture width of 176 cm is possible. In room light, the image should be max. 117 cm wide. Thanks to the built-in 9000mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The projector has optional Ezcast, Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playing 1080P is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. It was launched in 2019 and is no longer offered by the manufacturer Acer, but is still very popular in our projector database.
