

# Acer H6518BD neu

ACER H6518BD NEU

A brief introduction to the Acer H6518BD new. The home cinema DLP projector has an HDTV 1920 x 1080 resolution and a contrast of 20000:1. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. 592 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 395 cm. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. Playing 1080P and 3D is also no problem for the projector. On the market since 2017, the model is no longer offered by the manufacturer Acer.
