

Acer P5530i

ACER P5530i

With the P5530i, manufacturer Acer offers a standard portable DLP projector with HDTV 1920 x 1080 resolution and a contrast of 20000:1. The lamp of the projector is specified with a lamp life of 10000 hours, which is over 13.7 years if enjoyed for two hours every day. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. An image width of up to 643 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. The projector has optional screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. The projector can also play 1080P without any problems.
