

Acer P5535

ACER P5535

The P5535 DLP projector from Acer has 4500 Ansi lumens, a contrast of 20000:1 and an HDTV 1920 x 1080 resolution. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The horizontal and vertical keystone correction provides leeway when setting up. Thanks to the brightness of 4500 Ansi lumens, a picture width of 682 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 455 cm). A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. It is also Full HD 1080P compatible. On the market since 2021, the model is no longer offered by the manufacturer Acer, but is still very popular in our projector database. Unfortunately, we can no longer offer a replacement lamp for this model, neither original nor replica.
