Illumination

The Acer P7270 standard portable DLP projector has 4000 Ansi lumens, a contrast of 2300:1 and an XGA 1024 x 768 resolution. The horizontal and vertical keystone correction provides leeway when setting up. 551 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 367 cm here. The model is also Full HD 1080P compatible. At just 29 decibels, the device is one of the quieter projectors. On the market since 2008, the model is no longer offered by the manufacturer Acer.
