

Amovfilm Q310 Gold

AMOVFILM Q310 GOLD

The Amovfilm Model Q310 Gold is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast ratio of 1000:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours per day. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. Thanks to the short-throw projection ratio of just 0.8:1, the projector doesn't get in the way in the room. For a 2-meter-wide image, the projector needs to be positioned just 160 cm from the screen. Since the projector supports AirPlay and Miracast screen mirroring, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi.
