

Appotronics AL-MH625

APPOTRONICS AL-MH625

With the AL-MH625, manufacturer Appotronics offers a DLP laser projector with HDTV 1920 x 1080 resolution and a contrast of 100000:1. The laser has a service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The integrated lens shift gives freedom when positioning the projector. The projector can illuminate images up to 800 cm wide thanks to its 6200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 533 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. The projector can also play 1080P and 3D without any problems. Even projection onto the ceiling is possible thanks to the 360° projection.
