

# ASK Proxima E3755

## Brief Introduction

Beta 2.5

With the E3755, manufacturer ASK Proxima offers a DLP projector with XGA 1024 x 768 resolution and a contrast of 6000:1. The manufacturer ASK Proxima specifies a lamp life of 4000 hours, which is equivalent to over 5.5 years at 2 hours per day. Including a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 754 cm is possible as the projector has 7500 Ansi lumens. Rooms with residual light can be created by the projector with a smaller image width, max. 503 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2013, the model is no longer offered by the manufacturer ASK Proxima.
