The Game-Portabel HY320 LED LCD has 200 Ansi-Lumen, a contrast of 1500:1 and an HDTV 1280 x 720 resolution. The manufacturer specifies an LED service life of 30,000 hours, which converts to over 20.5 years with 4 hours of daily use. The integrated media player allows files to be played directly. The projector can illuminate an image width of up to 144 cm thanks to its 200 Ansi lumens. In room light, however, the picture width should ideally be less than 96 cm. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. The model is also Full HD 1080P and 4K (compressed) compatible. The operating noise of just 25 decibels makes the projection quiet.
