Operating Noise

The Asus ZenBeam Latte L1 3D LED DLP projector has 300 Ansi lumens, a contrast of 400:1 and an HDTV 1280 x 720 resolution. The manufacturer specifies an LED service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. Thanks to the brightness of 300 Ansi lumens, a picture width of 176 cm is possible. In room light, the picture should be max. 117 cm wide. The built-in 6,000 mAh battery lasts for 3 hours without the need for a power supply, allowing the projector to be set up quickly and flexibly. It is also Full HD 1080P and 3D compatible. The operating noise of just 30 decibels makes the projection quiet.
