The Barco XDX-4K25 3D DLP projector has 23500 Ansi lumens, a contrast of 2000:1 and a UHD (4K2K) 3840 x 2160 resolution. 23500 Ansi lumens ensure that a picture width of 1557 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 1038 cm. Playing 1080P and 4K as well as 3D is also no problem for the projector, which means that all Blu-ray formats currently on offer can be recognized by the projector. It was launched in 2022 and is no longer offered by the manufacturer Barco.
