

Benq HT2060

BENQ HT2060

A brief introduction to the Benq HT2060. The DLP LED projector has an HDTV 1920 x 1080 resolution and a contrast of 500000:1. The manufacturer states an LED life of 20000 hours, which is the equivalent of over 13.7 years at 4 hours per day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. The projector can illuminate a picture width of up to 487 cm thanks to its 2300 Ansi lumens. In room lighting, however, the image width should ideally be less than 325 cm. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector.

Brief Introduction

Beta 2.5

Display Type

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
