

Benq LK935

BENQ LK935

The standard portable LK935 3D laser DLP has 5500 Ansi lumens, a contrast of 3000000:1 and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The integrated lens shift gives freedom when positioning the projector. 5500 Ansi lumens ensure that a picture width of 753 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 502 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. The model is also Full HD 1080P and 4K as well as 3D compatible, meaning that all Blu-ray formats currently available can be recognized by the projector. The projector was launched in 2023 and is no longer sold by the manufacturer.
