

Benq SX930

BENQ SX930

A brief introduction to the SX930: The Benq DLP projector offers 7000 Ansi lumens, a contrast of 2500:1 and an XGA 1024 x 768 resolution. The projector also offers a lens shift function that makes image adjustment childs play. As the SX930 is equipped with a microphone jack and 10W speakers, no additional audio system is required for presentations or training courses. The projector will be able to illuminate a screen width of 729 cm well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 486 cm here. A smartphone with MHL connection can be connected directly to the MHL/HDMI port to perform 1080p / 60 Hz image mirroring (screen mirroring). The model is also Full HD 1080P compatible. The model built in 2015 is no longer offered by Benq.
