

Benq W11000H

BENQ W11000H

The Benq model W11000H is a DLP projector with 4KESHIFT 2716 x 1528 4,150,048 pixel resolution and a contrast of 50000:1. The built-in lens shift function provides freedom when setting up. An image width of up to 477 cm is possible. However, the image should be smaller in room light. We recommend max. 318 cm. The model is also Full HD 1080P and 4K compatible. With only 26 decibels of operating noise, the model is already very quiet compared to others. This model is no longer offered by Benq, but is still very popular in our projector database.

Brief Introduction
