

bnoe P8

Brief Introduction Beta 2.5

Brief introduction to the bnoe P8. The LCD LED projector has an HDTV 1920 x 1080 resolution and 2000 ANSI lumens. The LEDs have a service life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. The horizontal and vertical keystone correction allows the projector to be set up very freely. An image width of up to 454 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 303 cm. Google TV turns the projector into a smart entertainment center with countless functions. The model recognizes Chromecast, Airplay, and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P and 4K (compressed) compatible.
