

Boldever C200R Roku TV

EAN/UPC:B0H4QGWADB

Brief Introduction

Beta 2.5

The C200R Roku TV LED LCD has 200 ANSI lumens and an HDTV resolution of 1920 x 1080. It is an LED projector with a lamp life of 30,000 hours, which would equate to over 20.5 years based on 4 hours of daily viewing. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 144 cm is possible. However, in room lighting conditions, the image should be set to a smaller size. We recommend a maximum of 96 cm. Since the projector supports AirPlay, Miracast, and screen mirroring, you can stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another notable feature is that the projector's Bluetooth function allows it to connect to external wireless speakers. Additionally, the projector can play 1080p content without any issues.
