The standard portable Brilens EI-1920 LED LCD projector has 144 Ansi lumens, a contrast of 50000:1 and an HDTV 1920 x 1080 resolution. The manufacturer Brilens specifies a service life of 30000 hours, which converts to over 20.5 years with 4 hours of daily use. As Brilens specifies the brightness of the projector in lumens, we have calculated an approximate ansi lumen value in this case. 122 cm image width the projector will be able to illuminate well. However, if there is room light, the picture width should ideally not exceed 81 cm. It is also Full HD 1080P compatible.
