

Canon LX-MH502Z

CANON LX-MH502Z

The Canon LX-MH502Z stationary Laser DLP projector has 5000 Ansi lumens, a contrast of 50000:1 and a UHD (4K2K) 3840 x 2160 resolution. The lifespan is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. The integrated lens shift gives freedom when positioning the projector. 718 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we would recommend a maximum of 479 cm here. Furthermore, the projector can play 1080P and 4K without any problems and even has the option of projecting HD 1080P and 4K Blu-rays onto the ceiling using 360° projection. The model built in 2018 is no longer offered by Canon.
