The Casio XJ-F211WN Standard Portable Laser DLP Projector has 3500 ANSI lumens, a contrast ratio of 20000:1, and a WXGA 1280 x 800 resolution. The manufacturer Casio specifies the service life as 20,000 hours, which would be over 13.7 years if viewed for 4 hours a day. Horizontal and vertical keystone correction provides flexibility when setting up. Since the XJ-F211WN is equipped with a microphone jack and 16W speaker, no additional audio equipment is required for presentations or training sessions. An image width of up to 601 cm is possible; if the image width is smaller (we recommend max. 401 cm), even rooms with residual light are no problem. The projector can also play 1080P without any problems. This model is no longer available from Casio.
