

Casio XJ-UT311WN

CASIO XJ-UT311WN

A brief introduction to the Casio XJ-UT311WN. The DLP laser projector has a WXGA 1280 x 800 resolution and a contrast of 20000:1. The service life is 20000 hours due to the laser, which is over 13.7 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. As it is a short-throw projector, the projector can be positioned very close to the wall. For a 2 m wide image, the projector only needs to be 56 cm away from the screen. The projector is equipped with a microphone jack plug and 16W speakers, so no additional speakers are required for presentations or training sessions. The model is also Full HD 1080P compatible. The projector was launched in 2017 and is no longer sold by the manufacturer.

Brief Introduction Beta 2.5
