

Caydo P1

CAYDO P1

The Game-portable P1 LED LCD projector from Caydo has 150 ANSI lumens and an HDTV 1280 x 720 resolution. The manufacturer states an LED lifespan of 30,000 hours, which is over 20.5 years at four hours of use per day. An image width of up to 124 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 83 cm. The model recognises Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Video signals 1080P and 4K (compressed) are also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection.

Brief Introduction

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

150
