

Christie DW6kc

CHRISTIE DW6KC

With the DW6kc, manufacturer Christie offers a stationary DLP projector with HDTV 1280 x 720 resolution and a contrast of 1600-2000:1. The built-in lens shift function provides freedom when setting up. An image width of up to 760 cm is possible, if the image width is smaller (we recommend max. 507 cm), rooms with residual light are also no problem. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. This model is no longer offered by Christie. It should also be noted that there are unfortunately no longer any replacement lamps available for this projector, neither originals nor replicas.
