3000 ANSI Lumens for Business Application...

Meeting rooms differ in size, layout, illumination as well as the use of natural or artificial light. A projector which is used in various rooms must be able to adapt to all these individual conditions. With 3000 ANSI lumens, XGA resolution, all important interfaces as well as digital keystone correction, the CL-ACC-16030 is the perfect presentation tool for business use.

- Brightness of 3000 ANSI lumens
- Epson 3LCD panel for breathtaking brilliance
- +/- 30° digital keystone correction
- HDTV ready
- Selectable 4:3 and 16:9 aspect ratio
