

# Claxan CL ACC 27020

CLAXAN CL ACC 27020

The Claxan model CL ACC 27020 is an LCD projector with XGA 1024 x 768 resolution and a contrast of 500:1. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 408 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 272 cm. At just 27 decibels, the device is one of the quieter projectors. It is no longer offered by the manufacturer Claxan. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither original nor replica.
