

Digital Projection TITAN 1080p 330 3D L

The Digital Projection TITAN 1080p 330 3D L 3D DLP projector has 6000 Ansi lumens, a contrast of 2000:1 and an HDTV 1920 x 1080 resolution. With the lens shift function, the projector can be positioned very freely. 6000 Ansi lumens ensure that a picture width of 787 cm is also possible. The projector can handle rooms with residual light with a smaller image width, we recommend a maximum of 525 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. The projector can also play 1080P and 3D without any problems. On the market since 2013, the model is no longer offered by the manufacturer Digital Projection.

Brief Introduction

Display Type

3 x 0,95" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

6000
