

Digital Projection TITAN 1080p 330 3D L Ultra Contrast

Brief Introduction

Beta 2.5

The Digital Projection TITAN 1080p 330 3D L Ultra Contrast Large-Anl ge  sse 3D DLP projector has 3000 Ansi-Lumen, a contrast of 5000:1 and a HDTV 1920 x 1080 resolution. Including a lens shift function, which provides freedom during installation. An image width of up to 556 cm is possible as the projector has 3000 Ansi lumens. However, if room light is available, the picture should be max. 371 cm wide. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. Playing 1080P and 3D is also no problem for the projector. The projector was launched in 2013 and is no longer sold by the manufacturer.

Display Type

 3 x 0,95" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 3000 Screen 1333 Lux (bei 200 cm Screen)

Contrast
