

Digital Projection TITAN 1080p 330 P

The TITAN 1080p 330 P 3D DLP projector from Digital Projection has 6000 Ansi-Lumen, a contrast of 2000:1 and a HDTV 1920 x 1080 resolution. The built-in lens shift function provides freedom when setting up. 6000 Ansi lumens ensure that a picture width of 787 cm is also possible. The projector creates rooms with residual light with a smaller image width, max. 525 cm is recommended. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. It is also Full HD 1080P and 3D compatible. This model is no longer offered by Digital Projection, but is still a popular projector in our database.

Brief Introduction

Display Type

3 x 0,95" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

6000

2667 Lux (bei 200 cm Screen)
