

Digital Projection TITAN 800 WUXGA

Brief Introduction

Beta 2.5

A brief introduction to the Digital Projection TITAN 800 WUXGA. The DLP projector has a WUXGA 1920 x 1200 resolution and a contrast of 2000:1. The built-in lens shift function provides freedom when setting up. 12000 Ansi lumens ensure that a picture width of 1113 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 742 cm. Video signals 1080P and 3D are also no problem for the projector. On the market since 2012, the model is no longer offered by the manufacturer Digital Projection, but is still one of the very popular projectors.
