

Digital Projection TITAN WUXGA 660 alt

The large-screen TITAN WUXGA 660 old 3D DLP projector from Digital Projection has 12000 Ansi lumens, a contrast of 2000:1 and a WUXGA 1920 x 1200 resolution. Including a lens shift function, which provides freedom during installation. A picture width of up to 1113 cm is possible, if the picture width is smaller (we recommend max. 742 cm), rooms with residual light are also no problem. Video signals 1080P and 3D are also no problem for the projector. The model built in 2011 is no longer offered by Digital Projection.

Brief Introduction

Beta 2.5
