

Dukane ImagePro 6540HD

DUKANE IMAGEPRO 6540HD

The standard portable ImagePro 6540HD 3D DLP projector from Dukane has 4000 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. Includes an integrated media player that can be used to play files directly. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. The projector is equipped with a microphone jack plug and 20W speakers, so no additional speakers are required for presentations or training courses. 4000 Ansi lumens ensure that a picture width of 643 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Furthermore, the projector can play 1080P and 3D without any problems. This model is no longer offered by Dukane.
