

Dukane ImagePro6645HDA

Brief Introduction

Beta 2.5

A brief introduction to the ImagePro6645HDA: The Dukane 3D DLP projector offers 4500 Ansi lumens, a contrast of 6000:1 and HDTV 1920 x 1080 resolution. The lamp life is specified by the manufacturer as 5000 hours, which converts to over 6.8 years at 2 hours per day. The projector also offers a lens shift function, which makes image adjustment childs play. An image width of up to 682 cm is possible as the projector has 4500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 455 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. The model is also Full HD 1080P and 3D compatible. It was launched in 2016 and is no longer offered by the manufacturer Dukane.
