

Dukane ImagePro 8133WISS

EAN/UPC:605194006854

The Dukane ImagePro 8133WISS laser LCD projector has 3300 Ansi lumens, a contrast of 500000:1 and a WXGA 1280 x 800 resolution. It is a laser projector with 20000 hours of light life, which is over 13.7 years with four hours of use per day. The horizontal and vertical keystone correction provides leeway when setting up. As it is a short throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only needs to be 60 cm away from the screen. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Even 1080P video signals are no problem for the projector. The projector was launched in 2018 and is no longer sold by the manufacturer.
