The Dukane ImagePro 8962WU model is an LCD projector with WUXGA 1920 x 1200 resolution and a contrast of 5000:1. The manufacturer specifies a lamp life of 4000 hours, which converts to over 5.5 years at 2 hours. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. The projector can illuminate images up to 718 cm wide thanks to its 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 479 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. The model is also Full HD 1080P compatible. The projector was launched in 2016 and is no longer sold by the manufacturer.
