

Dukane ImagePro 8962WUM

DUKANE IMAGEPRO 8962WUM

With the ImagePro 8962WUM, manufacturer Dukane offers an LCD projector with WUXGA 1920 x 1200 resolution and a contrast of 10000:1. The lamp in the projector is specified with a lamp life of 4000 hours, which is over 5.5 years with a daily viewing time of 2 hours. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate images up to 733 cm wide thanks to its 5200 Ansi lumens. The projector creates rooms with residual light with a smaller image width, max. 489 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. As the projector optionally recognizes screen mirroring signals, it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). It is also Full HD 1080P compatible. On the market since 2010, the model is no longer offered by the manufacturer Dukane.
