

Eiki C735

EIKI C735

The stationary Eiki C735 laser LCD projector has 7300 ANSI lumens, a contrast ratio of 5000000:1, and a WUXGA 1920 x 1200 resolution. Thanks to the laser, it has a service life of 20,000 hours, which would be over 13.7 years if used for 4 hours a day. It includes a lens shift and keystone correction function, which provides flexibility during installation. The brightness of 7300 ANSI lumens allows for an image width of 744 cm. The projector can also handle slightly brighter rooms with a smaller image width (we recommend a maximum of 496 cm). Even 1080P and 4K (compressed) video signals are no problem for the projector.
