Data

The VistaGRAPHX 4000 DLP has 4000 Ansi lumens, a contrast of 400:1 and an XGA 1024 x 768 resolution. Thanks to the brightness of 4000 Ansi lumens, an image width of 551 cm is possible. The projector will also create slightly brighter rooms with a smaller picture width (we recommend max. 367 cm). The projector is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
