

Epson EB-L1105U

EPSON EB-L1105U

The Epson model EB-L1105U is an LCD laser projector with WUXGA 1920 x 1200 resolution and a contrast of 2500000:1. Due to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. Including a lens shift and keystone correction function, which provides freedom during installation. 6000 Ansi lumens ensure that a picture width of 787 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 525 cm. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. It was launched in 2016 and is no longer offered by the manufacturer Epson, but is still one of the most popular projectors.
